LONDON, ENGLAND - FEBRUARY 12: Jamie Dornan and Dakota Johnson attend the UK Premiere of "Fifty Shades Of Grey" at Odeon Leicester Square on February 12, 2015 in London, England. (Photo by Anthony Harvey/Getty Images) Movies like the incredibly popular erotic thriller 365 Days have piqued everyone's interest in the enticing genre, and many Netflix subscribers who enjoyed the scandalous Polish feature are eager to find similar titles to enjoy. Among all the options out there, many streamers are more than likely wondering if Fifty Shades Darker is available to stream on Netflix.Fifty Shades Darker is the exciting sequel to the 2015 film Fifty Shades of Grey and released in theaters on February 10, 2016. The film grossed a total of over \$380 million worldwide against a budget of \$55 million.The second chapter in the Fifty Shades of Grey film trilogy is based on the 2012 best-selling E. L. James novel of the same name and was directed by James Foley, whose other credits include Perfect Stranger, Fear, and Glengarry Glen Ross. Jamie Dornan reprised his role as Christian Grey, and Dakota Johnson returned as Anastasia Steele. Also in the cast is Eric Johnson, Eloise Mumford, Bella Heathcote, Rita Ora, Luke Grimes, Victor Rasuk, Marcia Gay Harden, and Kim Basinger.The story for the follow-up film follows Christian Grey's struggles with his inner demons and sees Anastasia confront the envious anger she feels toward the ladies that came before her. There is no shortage of reason to check out this stirring sequel, and it's no surprise subscribers desire knowledge on whether it's available on Netflix or not.Is Fifty Shades Darker available on Netflix?There is no easy way to say this, but the news regarding the second film in the Fifty Shades of Grey trilogy's availability on the streaming service isn't great. Fifty Shades Darker is not available to stream on Netflix.Subscribers should remember, however, that there are other options from the romantic-drama-thriller genre available on the streaming service. Netflix has titles like You, Desire, Dark Desire, Perfume, 365 Days, Newness, and more ready to view right now.Where to stream Fifty Shades DarkerFifty Shades Darker, along with the other two Fifty Shades films, Fifty Shades of Grey and Fifty Shades Freed, aren't available on any of the subscription streaming services. They are only available on VOD platforms such as Apple TV, YouTube, Vudu, and more. Next:What is Elite season 4 about?LONDON, ENGLAND - FEBRUARY 09: Dakota Johnson and Jamie Dornan attend the "Fifty Shades Darker" UK Premiere on February 9, 2017 in London, United Kingdom. (Photo by Anthony Harvey/Getty Images) Erotic romantic thrillers are all the rage these days, with movies like 365 days generating a robust amount of popularity when it arrived on Netflix last year. This has inevitably led to subscribers seeking out similar titles to enjoy, including inquiries into the Netflix availability of Fifty Shades of Grey.Fifty Shades of Grey is based on the best-selling book of the same name written by E.L. James. The feature was directed by Sam Taylor-Johnson, who is known for helming Nowhere Boy, where she met her husband, MCU actor Aaron Taylor-Johnson. 50 Shades of Grey was written by Saving Mr. Banks screenwriter Kelly Marcel. The erotic drama was released on February 13, 2015, after premiering at the Berlin Film Festival on February 11, 2015, grossing a total of \$569.7 million against a \$40 million budget.The movie stars Suspiria's Dakota Johnson as Anastasia Steele, a college graduate who ends up in an enticing relationship with a business magnate who also happens to be a sadomasochist named Christian Grey, played by Synchronic's Jamie Dornan. Other cast members include Jennifer Ehle, Marcia Gay Harden, Max Martini, Eloise Mumford, Victor Rasuk, Luke Grimes, and Rita Ora.Songs from the film's soundtrack gained tons of popularity, such as Ellie Goulding's single "Love Me Like You Do," which was nominated for a Golden Globe, and The Weeknd's single "Earned It," which was nominated for an Oscar. Whether it's the stirring story or stellar performances, it's no wonder why subscribers wonder if Fifty Shades of Grey is available to stream on Netflix.Is Fifty Shades of Grey available on Netflix?Many great movies are available on Netflix, and unfortunately, Fifty Shades of Grey is not one of them. While this news is definitely less than ideal, the streaming powerhouse has many exceptional options to choose from that are very similar to the adaptation of the E.L. James novel.Films on Netflix that Fifty Shades fans will enjoy include 365 days, Desire, Newness, and White Girl, just to name a few. Sultry TV shows available on the streaming service include Dark Desires, You, and Perfume, among several others.Where to stream Fifty Shades of GreyFifty Shades of Grey, along with its sequels, are not on any subscription streaming service right now. The films are only available on VOD platforms like Apple TV, YouTube, Amazon, and Google Play. Christian and Ana find themselves drawn to each other. Though Ana is sexually inexperienced and learns that Christian's sexual life is influenced by his distressed past, which pushes the boundaries of pain and pleasure. Trailer Fifty Shades of Grey Why I can not Watch Fifty Shades of Grey on Netflix now? Actually, what happens. Netflix uses geo-blocking software to prevent viewers from watching content from other countries and that's the reason why it is not available in your country. And whenever you search for your desired show it doesn't show the specific movie/series. At the moment Fifty Shades of Grey is available in countries like UK and France. And if we can somehow change location to France then we can access Fifty Shades of Grey and other titles on Netflix now. And exactly this, I am going to explain in the next lines. Steps to watch Fifty Shades of Grey on Netflix in any country When it comes to watching Fifty Shades of Grey on your Netflix account it's really surprisingly easy by using a high-quality VPN (Virtual Private Network). A good VPN can help us by changing our actual location to another location anywhere in the world. And now when we will access Netflix, it will see our changed (fake) location and show content from that location (country). Using this same method we can unblock Fifty Shades of Grey and a lot more other TV shows. Let's see how to watch Fifty Shades of Grey specifically: At the moment the country that has access to Fifty Shades of Grey is France and Canada.To connect to any of the countries mentioned above, you'll have to download a VPN that will mask your current location.The VPN I personally do use and recommend for streaming Netflix is ExpressVPN.To download and install ExpressVPN, check out our guides to install ExpressVPN.Once ExpressVPN installed connect to France based server (or any other listed above)Reopen Netflix App or Refresh Netflix page and search for "Fifty Shades of Grey".Now you can find Fifty Shades of Grey at the top.Click on expand and play, now enjoy the movie.Also, now you can unblock a lot more movies like Fifty Shades Freed, Fifty Shades Darker, The Notebook from anywhere in the world. ExpressVPN latest Deals: If you want to unblock this Anime now then go through this hidden link and massive 49% discount right now. This discount offer may expire soon. Unblock Fifty Shades of Grey on Netflix Now! Didn't get the video? Here is the video tutorial for you: Related Movies You May Like: Are you wondering why I am using ExpressVPN or why do I rely on it? Here are the reasons which make me use it personally: Why do I personally use ExpressVPN? I've tried many paid and free VPNs over the years. But unfortunately, Netflix detects and block most of the free VPNs and shows error message like this: If you want the overall best and fast VPN then I'll suggest you to go with ExpressVPN. The best thing is you can try it 30 days for free by using the money-back guarantee they provide. Use the VPN for 3-4 weeks and then ask for the refund in chat and you'll your refund instantly. Here are some more reasons why I personally use ExpressVPN: Express has 3,000+ high-performance servers in 94 countries, at 160 global locations all over the globe. The speed of ExpressVPN was impressive we carried out the tests with an FTTC connection at 100 Mb/s (which in the speed tests is close to 80 Mb/s) and in the test of the UK server we reached 78 Mb/s. In other words, I am able to watch the Netflix catalogue of 30+ countries in Ultra HD quality. Location of headquarter: ExpressVPN's headquarter is located in British Virgin Islands, a country that has no mandatory data retention laws which mean any government can't force ExpressVPN to keep a record of their users' data which is too good for privacy purpose. Technology: ExpressVPN uses OpenVPN and IKEv2 and L2TP-IPSec protocols, the first two are currently considered the most reliable security protocols. Just by the name, you can imagine how difficult it is to decrypt your data. And using this encryption it is able to unblock Netflix. Streaming Services: I tried to test ExpressVPN with Netflix, Hulu, Disney+, Amazon Prime Video, BBC iPlayer, HBO Max, and other streaming services from different servers in the US, UK, India, and every time I was able to stream in Ultra HD. Dedicated P2P servers: If you are a fan of downloading torrents then you know better how important it is. Most of the VPNs reduces your connection speed when you start to download something from P2P sites. Actually, most of them don't do it intentionally but when you download torrents, mostly big files, it increases the load of their servers which causes slow speed. To solve this issue, ExpressVPN provides you with the functionality of connecting via their P2P specialized servers. Works even in China: Those who travel often know the pain when they have to travel in countries such as Iran, Russia and the most painful China, where there is nothing such as Internet Freedom. But with ExpressVPN you can change your virtual location by simply changing the IP address and thus bypass the country- or organization-specific firewalls. Support: ExpressVPN provides us 24*7 supports and whenever I face any problem with any of their servers and ask for their help, they connect as soon as possible which is better than most of the VPN services which I used in past. Pricing: If we talk about its pricing then it comes with 3 options which cost \$12.9/month in a 1-Month Plan, \$8.32/month in 1-year plan, and \$9.99/month in the 6-Month plan, and if you check my discount links then can get even cheaper. Money-Back Guarantee: If you have purchased ExpressVPN and now you are not satisfied with their service then you can ask for money-back within 30 Days unconditionally. Mode of Payment: Whenever we talk about VPN, the first thing which comes in our mind is privacy. And whenever we talk about privacy then it is the same for even our card and other banking information. By keeping this matter in mind ExpressVPN also allows you to pay even via cryptocurrencies. Try ExpressVPN For Free 30 Days! FAQs You can watch Fifty Shades of Grey on Netflix, but only in UK and France and if you're outside France then you can't watch on Netflix because Netflix uses geo-blocks that's why it is not available if you're USA, India, Canada, or any other country. But no need to worry, by masking our location to the UK we can easily unblock France Netflix. Well, can't rule out possibilities in the future. But for now, Netflix does not have streaming rights. So it is very unlikely this anime series can come this year. Yes, you can unblock movies and shows all around the world on Android, iOS, Windows, Smart TV, and all the devices where you can play Netflix. If you'll search on google for ways to watch Fifty Shades of Grey movies online then you'll find tens of spammy pages with a lot of ads useless content. Still, there are few sites like Fmovies, GoMovies where you can find this movie, but these sites mostly contain copyright content, and accessing these sites can get you into legal issues. So, I do not recommend using these sites without a VPN which can hide your online identity. Doubts or Problems?
